-
1. Introduction
 2. An online poll, "Is AI a universal booster, a myth, or just a handy tool for ccTLDs?"
- 3 min
 3. Q1 to the panel: judging the outcome of the poll, what is YOUR take on the matter? A panel discussion involving the audience (20 min)
 4. Q2 to the panel: Given its usefulness, what ccTLD registry/registrar's approach to the use of AI in operations and planning should be? (15 min, with example of case studies)- a panel discussion
 5. How to make sure our use of AI remains legit, ethical, economical and effective, going forward? Which challenges should we foresee and be ready to react to them? (15 min)
 6. Second poll for audience: Will you be ready to:
 - a) deploy AI soon;
 - b) wait and see further developments;
 - c) decline its use due to legal, ethical, financial and any other considerations?
 7. Moderator's recap on the poll findings and thank-you to the panel and audience
