Question 1:

Most ccTLDs have been the first choice for registrations in their country or territory. With the large number of new gTLD's already operational, and the next round of gTLDs about to commence at ICANN, what should a ccTLD do to ensure it retains top place for registrants?

Question 2:

What should ccTLD's be doing to ensure their Registrars will remain the ccTLD will remain first choice?

Asia Pacific Top Level
Domain Association

Question 3:

There are sometimes legal or policy issues requiring the ccTLD to only allow Registrars who are domiciled in country. What steps can be taken to allow foreign Registrars to participate on equal terms?
