

Topic 2 : Build Capacity of All Significantly Interested Parties

- **Purpose and Goal of Capacity Building Effort**

- Increase Usage of Domain Names. Help Growth of Digital Economy
- Maintain the DNS System
- Educate the future policy maker/business person to understand how internet work

- **Capacity Building Area** : Technology, Policy

- **How to measure the success**

- Domain Registration Growth
- Higher Engagement in the Process
- (Did the multi-stakeholder/bottom up process applied in the policy making process?)
- (Did it impact on entering the business? Did the industry expand?)
- (Does more people connect to the Internet?)

● Category of Interested Parties/Stakeholder

(1) Government, (2) Private + Technical Community, (3) Academic, (4) Youth

- Why Government is important?

Government take major role in making policy. They need to understand how internet / IG work and reflect it in policy making. ccTLD managers has responsibility to communicate with government, make them understand.

- Why Youth(Next Generation) are important?

By educating them how Internet work, they understand how global public resources distributed to people around the world, why it is important, and what we need to do to keep the internet the way how it is now. Hope they can apply in their field in the future

(Case Study) Japan : educational material to junior/senior high school, technical colleges about how Domain Name and DNS work, the role of HTTPS, etc

Indonesia : Lecture in College, **Russia** : Training to 'Justice' representatives, **Bahrain** : Hackathon, technical training(emerging technology) to increase business opportunity

Suggestion to the Board : Capacity Development

● Government

- 'Government Training Day' at APTLD meeting
- Invite nearby countries' Government representative
- Let government representatives know the concept of Internet governance, Internet ecosystem, so hopefully they apply when making digital policy
- Provide a space for government representatives to get together, learn about Internet, share their own issues, act together

● Youth(Next Generation)

- Gather the best practice/experience from members
- Share resources with members
- Try the project in your country and share to other members
